EXPERIENCE continued

PROGRAMMER AND DATABASE ARCHITECT

Panasonic Services | Moscow, Russia | 2006 – 2008

IT solutions and services for telecommunications sector, including software development and project maintenance.

- Maintained and improved the company's legacy software used for the service requests tracking, orders of the spare parts from vendors and the QA.
- Was enriching the company's customer and partner portals with a new functionality and awesome features.
- Developed a Web Portal to publish a hierarchical storage of the company's certificates for all the various kinds of electronics which they imported.
- Also took care of the administration of a number of Oracle instances running both on Linux RHEL and Windows Servers.

Used technologies: C# ASP.NET, Oracle (PL/SQL), RMAN, PHP.

ORACLE CONSULTANT

Card Tech Ltd | Moscow, Russia | 2005 – 2006

CTL is a leading provider of technology-enabled payment processing for merchants. Through physical POS, and online, as well as CRM and ERP software integrations,

- Migrated a legacy credit card processing software to Oracle.
- Wrote PL/SQL code for managing and processing data
- Optimized OLTP.
- Dealt with the raw data parsing, transaction processing, reporting and analytics – all with a PL/SQL and SQL.

Used technologies: Oracle (PL/SQL, SQL, Data Cartridges)

SYSTEMS ARCHITECT

Public Opinion Foundation | Moscow, Russia | 2001 – 2006

The company is one of the oldest polling institutions and a leading sociological and market research company in Russia. The wide range of research techniques, such as personal interviews, focus-groups, exit polls, and etc. require software to collect, validate and process these data.

- Designed and developed both the front and the back-end solutions to work with the sociological data: data collection, data import, validation, aggregation and reporting.
- A lot of textual data required us to implement an own context analysis framework which included normalization, reverse text indexing, summary generation, etc.

Used technologies: C++, MFC, C# (WinForms, ASP.NET), Oracle Server, Oracle Text, Oracle HTMLDB, Adobe Flex.
